#### **Staff:**

This Friday- no IHS classes, as teachers will be meeting for collaborative work on curriculum.

#### **Equity Decision-Making Tool for 4J:**

This is a decision-making checklist and tool for groups to make decisions with Equity in mind.

The discussion was around how useful the conversation that comes from starting to use this tool is, that the discussions (when using the questions about equity) often take longer and yet are GOOD conversations to have. Point made that often this kind of decision-making starts to become natural after practice (the metaphor of a muscle being exercised until it doesn't hurt anymore is used).

Question was asked if the staff wanted to give it a try- we decided to, informally, try to frame curriculum conversations on Friday with at least one question in mind.

Student Government could use the tool as well, in some of their activities- Ultimate Frisbee match... for instance

More discussion of how it worked/will work later!

- Health Novel- they have decided to wait
- IB History Material- no definitive amount requested
