

Eugene IHS - IB Math and Science Sequence:

Students interested in pursuing the full IB Diploma will complete six exams covering six different content areas over their junior and senior years in high school. In addition to their Eugene IHS IB classes, students will enroll in IB courses in Math, Science, and World language. In order to fulfill the 150 hours required by IB for a standard level exam, IB Math is set up as a three-trimester class. IB Physics is a two-year class that will prepare students for testing in higher-level science.

Below are possible routes students could take in both math and science that would prepare them for either individual IB testing or for the full IB diploma.

Possible IB math sequences:

9 th Grade	10 th Grade	11 th Grade	12 th Grade
Geometry	Algebra 2	IB Math	AP Calc
Algebra	Geometry	Algebra 2	IB Math
Algebra 2	AP Stats	IB Math	AP Calc
Pre-Calc	AP Calc or AP Stats	IB Math	AP Stats or AP Calc

Possible IB Science sequences South/Churchill:

9 th Grade	10 th Grade	11 th Grade	12 th Grade
Biology	Chemistry	IB Physics I	IB Physics II
Physical Science	Biology	IB Physics I	IB Physics II

Possible IB Science sequences Sheldon:

9 th Grade	10 th Grade	11 th Grade	12 th Grade
Biology	Chemistry	IB Bio I	IB Biology II
Physical Science	Biology	IB Biology I	IB Biology II
